EDUCATION

Tecnológico de Monterrey

Monterrey, NL, Mexico

B.S. in Computer Science and Technology

Aug. 2025 – Present

- Gallagher Foundation Scholarship — one of Mexico's most selective merit-based scholarships (5 scholars/year); full tuition plus ongoing mentorship
- CODEX — selective high-performance program with weekly ICPC-style training in algorithms, data structures, and problem-solving
- Relevant coursework: Object-Oriented Programming, Discrete Mathematics, Calculus, Web Development Foundations

PROJECTS

WeekFive | *React 18, TypeScript, Node.js, Express, SQLite, JWT, Tailwind CSS*

Demo | Code

- Built and deployed a full-stack academic management web app with authentication, persistent storage, and bilingual (EN/ES) support; serves 9 feature modules across a responsive React SPA
- Developed the frontend with React 18 + TypeScript, Tailwind CSS, React Router v6, and Zustand for state management (one store per resource), with global search and dark mode
- Implemented and consumed a REST API (Express, JWT, bcrypt) with protected routes for tasks, subjects, exams, grades, and planner events; deployed on Vercel + Railway with persistent SQLite Volume

SafeGuide | *React, FastAPI, PostgreSQL, Groq AI, Vitest*

EduMakers × Tec de Monterrey

- Developed the React frontend for an AI assistant on Mexican human-rights law, including conversational UI, crisis detection flow, and a filterable directory of 200+ verified resources (shelters, legal aid, health services)
- Integrated the frontend with a FastAPI + PostgreSQL backend through typed REST endpoints; contributed to 23 automated tests covering UI and API behavior

ClimateRoots | *Next.js 14, TypeScript, Tailwind CSS, Server Actions*

SOSAC × Tec de Monterrey

- Shipped a production website for a 1,100 m² urban-ecology lab: 12-species filterable catalogue (SSG), 6 interactive zones, and community registration via Next.js Server Actions

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML, CSS, Tailwind CSS, Zustand, React Router, Vite

Backend: Node.js, Express, REST APIs, JWT, bcryptjs, FastAPI, SQLite, PostgreSQL

Languages: TypeScript, JavaScript, Python, C++, Java, SQL

Tools & Deploy: Git, GitHub, Vercel, Railway, Figma, Vitest

Spoken: Spanish (native), English (professional working proficiency)

ACTIVITIES & RECOGNITION

Capital One Hackathon | *SharedSavings — collaborative fintech prototype*

Apr. 2026

- Team-built a collaborative savings prototype with multi-goal types, leader permissions, and a contribution simulator; contributed across the full stack — landing page, group system, and frontend-backend integration (JavaScript / Python / Flask / SQLite)

Roberto Rocca Scholar | *Tenaris TAMSA “Gen Técnico” Hackathons*

2024 – 2025

- Selected two consecutive years as a Roberto Rocca Scholar at Gen Técnico, Tenaris TAMSA's annual technical hackathon recognizing top students by academic merit and engineering aptitude

Technical Diploma in Programming | *CETIS 15*

Jul. 2025

- Multi-year specialized technical program in software development (Python, C, C++, Java, PHP, SQL, full-stack web); formal certification earned before entering university

Programming Certification | *Computación del Golfo*

Feb. 2024

- Year-long intensive program covering programming foundations in C++, Python, PHP, and web technologies (HTML/CSS/JS) — early formal training that built the base for later full-stack work
